Renewable Energy Sales Engineer

Are you a Sales and results motivated professional, problem-solving individual with experience in an electrical power distribution manufacturing environment? Then consider applying for the Renewable Energy Sales Engineer position now open with Electro-Mechanical Industries, Inc. (EMI). We are a family owned, custom manufacturer of electrical power distribution equipment located in Plymouth, MN. The company, with 41 years of steady growth and product innovation, provides products and services to Solar field developers, contractors and channel partners throughout the US.

This Sales Engineer position will drive sales by developing strong business relationships with new and existing solar field developers, Solar contractors, and channel partners in the renewable energy sector. Sales Engineers will focus on sales of key suppliers and customer manufactured products while supporting EMI initiatives and directives.

Multiple Territory opportunities: North Dakota, Rochester, Twin Cities and St. Cloud Area Accounts.

The Sales Engineer is a non-Union position and reports to the Sales Manager.

Essential Job Duties:

- Meet or exceed assigned sales goals.
- Follow-up/respond to client inquiries in a timely manner.
- Develop positive and professional working relationships with assigned clients.
- Schedule travel to client sites in territory to meet business needs (2-4 days/week) with some overnight travel.
- Work with technical sales, engineering and other departments to produce timely quotes.
- Communicate with Project Manager and other internal departments as required to ensure on-time delivery of client order.
- Attend and participate in sales team meetings.
- Outreach to electrical engineering community in territory.
- Attend trade shows as required.
- Keep up on industry trends and technical knowledge.
- Report sales activity to management, as required.

Education and Experience Required:

- High school diploma or 5 years of proven technical sales experience
- Preferred: College degree in engineering or with a technical major degree
- A minimum of three years' experience in technical sales or related field in the electrical distribution industry.
- Proven track record of sales success.

13300 6th Avenue North
Plymouth, MN 55441

Competencies:

- Excellent interpersonal, presentation and communication skills (verbal & written).
- Highly organized with attention to detail.
- The ability to understand the technical needs of the clients through conversational interaction and converting those needs into sales.
- Ability to respond to common inquiries or complaints from customers.
- Good knowledge of the industry and trends impacting the business.
- Ability to read, analyze, and interpret industry/trade magazines.
- Ability to maintain professional competencies in the renewable energy sector.
